

Potato balm – Suitability For Food Contact

We are happy to confirm the suitability for food contact of Santénatur Potato balm.

After consultation with the laboratory of the manufacturing company, which Kartoffelbalsam according to our recipe produces, we can say:

- **Santénatur Kartoffelbalsam contains only natural or nature-identical substances**
- **Santénatur Kartoffelbalsam contains no parabens and petroleum distillates**
- **Santénatur Kartoffelbalsam natural essential Oils scented**
- **There is a unperfumed essential Oil free variant**
- **The conservation is done with minimal quantities of natural or nature-identical preservatives which are also food approved.**
- **The Bioburden meets all the requirements for medical/ Cosmetic products**

Thus, it can Santénatur Kartoffelbalsam easily also in dealing with food as a hand cream used to be.

Mit freundlichen Grüßen

Hochdorf, 24. Juni 2008
